

Psychiatrist Geriatric Outpatient Services

Agency Overview

Founded in 1889, Family Service Agency of San Francisco has a 121-year history of innovation in services for vulnerable children, families, and adults. With a \$16 million operating budget and nearly 400 employees, FSA offers a dynamic, challenging, and supportive work environment. All staff is supported to increase their skills, enter new domains, and increase their position and salary as their skills grow. FSA offers an excellent benefits package and salaries that are well over the median for Bay Area non-profits. We are seeking employees who are excited by the idea of lifelong growth in the skills they bring to helping those in need.

Program Description

FSA's Senior Division offers specialized, multidisciplinary geriatric mental health services and other aging-related social services to a diverse senior population. Our comprehensive mental health services include medication assessment and management, care management, individual and group therapy, community integration, peer case aides, specialized outreach in the community, and drop in centers. Our clinicians specialize in co-occurring disorders and the recovery model, and they receive advanced training in evidence-based practices through FSA's Felton Institute. The Division also partners with UCSF under a NIMH Research Infrastructure Science Project (RISP) to develop innovative assessment tools and practices. Geriatric Outpatient Services 1010 Gough (GOS) offers comprehensive services for seniors with mental health concerns, helping them to maintain independence and dignity to age in place. GOS offers mental health services to older adults and includes a range of outpatient services, including dual diagnosis, intensive case management and assisting homeless elderly. Family Service Agency has contracts with the Department of Community Behavioral Health, in addition to contracts with private health maintenance organizations. Under the supervision of the Program Manager, this position participates in a multi-disciplinary team providing for crisis intervention, evaluation, and treatment and case management of elderly persons who are at-risk because of psychiatric disabilities. Some services are provided in the home.

Job Description

Under the administrative supervision of the Program Director, provides psychiatric evaluation, psychiatric medication management, differential diagnosing, prescribes psychiatric medication and assists in directing treatment planning within a multi-disciplinary treatment team, for treatment of older adults with psychiatric disabilities or co-occurring mental health and substance abuse concerns. Services are at times provided in home setting. Additional duties as needed.
